

# CURRICULA

This section contains curricula for students who plan to **transfer** and for students in **technical** programs. All curricula are organized alphabetically. Directly under each discipline title are key words to guide students as to whether the curriculum (list of coursework) is designed for transfer, or is a technical program. Some have both options within the discipline. Other key words will indicate if the program is also online or has limited enrollment.

## Transfer Curricula

- For students planning to pursue a bachelor's degree
- Curricula listed is suggested for first two years toward the bachelor's degree
- Students need to consult the four-year institution they will transfer to and revise BSC's suggested curriculum as needed.

## Technical Programs

- For students seeking skills and knowledge for entry-level employment
- Most programs are not designed for transfer

- Some exceptions exist for students seeking management positions. Ask your advisor about bachelor of applied science degrees.
- Some programs have limited enrollment, with admission on first-come, first-served basis.

**Availability of courses is subject to change whenever such changes are deemed necessary, or based upon availability of resources, or student enrollment.**

The list on the next page includes all transfer curricula and programs, the type of degree students can earn, and the page numbers. The type of degree is indicated by these abbreviations:

- AA – Associate in Arts
- AS – Associate in Science
- AAS – Associate in Applied Science
- BAS – Bachelor of Applied Science
- C – Program Certificate
- D – Program Diploma
- CC – Certificate of Completion
